FOR BENEFITS RECEIVED

DEAR SIR: PLEASE ALLOW ME THE PRIV wonderful curative properties of your invaluable medicine, HUNT'S REMEDY. During the past six or seven years I have been a great sufferer from kidney disease, and during a great part of the time my sufferings have been so intense as to be indescribable. Only those who have suffered by this read disease know of the awful backache and pains of all kinds, accompanied by great weakness and rvous prostration, loss of force and ambition which invariably attend it. I had all these troubles tensified, and was in such bad condition that I ould not get up out of my chair except by putting my hands on my knees, and almost rolling out before I could straighten up. I tried the best doctors and many kinds of medicine, but all failed to help me, and I experimented so long endeavoring to get cured that last spring I was in very poor shape, and in seeking for relief my attention was directed by a friend to the remarkable cures of kidney diseases. etc., which were being accomplished by HUNT'S REMEDY. I was induced to try it, and began to take it, and very soon "limbered up" as it were; my severe buckache, and the intense pains I had suffered so long, speedily disappeared, notwithstanding I had been bothered with this complaint for many

When I began to take HUNI'S REMEDY I was considerably run down in my general health, and suffered also from loss of appetite. Ever since I have been taking the REMEDY, however, my improvement has been most marked. My forner complaints, aches, pains, etc., have disappeared, and I now feel like my former self—hale, hearty and sound in health. I shall always keep HUNI'S REMEDY with me, and would most earnestly recommend all hose who are sufferers from kidney or liver diseases, or diseases of the bladder or urinary organs, to use HUNT'S REMEDY, and to take none other. Yours very truly,

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

79 Dearborn Ave., Chicago, Nov. 7. I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have and I could eat but thee. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine.

Massacre by Indians. ALBUQUERQUE, December 7th .- News is reeived of the massacre of a party of Ameri-sans and Mexicans by Ju, of Casa Grande, in Chihuahua. The Indians have been very active of late in predatory excursions, stealing and raiding, and the settlers formed a party of about twenty men and started in pursuit. They were surprised near Casa Grande by Ju and his band, numbering 200, and completely surrounded. One of the powder which had not excluded. The head party escaped through the lines and went to was blown off of one, and the legs of another a settlement for aid, soon returning with a band of thirty men. The Indians, however, held the succoring party at bay, and mean-while massacred the entire party which had been surprised, and then retreated toward the mountains. [SECOND DISPATCH.]

ALBUQUERQUE, December 7th .- A special from Chihuahua, Mexico, states that the re-cent massacre in Casa Grande by Indians proves to have been a horrible affair. A band of Apaches, numbering 500, crossed the border, descended upon the little town and began an indiscriminate massacre, fully 75 persons an indiscriminate massere, fully to persons foling victims. Several girls and women were carried off by the savages. A large quantity of stock and other property was stolen. The houses of the unfortunate Mexicans were burned, and the dead bodies stripped of their clothisg and jewelry. The nurdered persons were among the wealthiest

The sion will make suggestions as to any additional legislation that may be needed to carry out the principles of the law under which the ission was organized, we would state that, in our judgment, a marriage law enacted by Congress would be a sufficient auxiliary in the suppression of polygemy. It is asserted and generally believed by non-Mormons in the Territory that plural marriage is practiced there in scoret. We would recommend that Congress enact a law declaring all future marriages rull and void unless they are contracted and evidenced in the manner pro-vided for in the Act. For example: That all marriages be solempized in certain designated public places, and witnessed by such porsons and so registered in such public offices as to make proof of the marriage morally certain, and provide also that persons effici-ating in a marriage cereinony, together with the parties and witnesses, shall make their affidavits against polygamy and set forth the time and place and other particulars re-lating to the marriage; or allow marriages to be solemnized in private, but with the lates to be solemnized in private, but with the like guarantee of registration, affidavits of wit-A FULL SUPPLY OF THE CELEBRATES

WHY WOOD JOISTS ARE SAFER THAN IRON IN CASE OF FIRE. - Wood joists are being used in the construction of the building on Walnut street, above Fourth street, in preference to iron to guard against danger in case of fire. Strange as such a statemeat may appear, it is a matter of fact that many New England builders contend that the wood joists, encased in plaster, are proof against any ordinary fire, and for many reasons are much preferred by them to the ordinary regulation fireproof iron joists. The joists are "stripped" on the outside, and over these strips irons are run, theory is that in an ordinary fire these joists thus treated will be fireproof, and only when the fire has reached such a fury that the building must go anyway will they be effected. Here comes in one of the advantages claimed for them. When a building is being burned by a furious fire the iron joists expand and crush out the walls and do other damage. The wood joists would simply be burned up without ir juring the walls at all .- ! Philadelphia

A RAT STORY,-It may not be thought, by those not well advised as to the dangerous character of a wound from the teeth of a rat, or as to its ability to inflict many and severe is a fact that a rot in a corner is an antagonist not to be treated cavalierly. Instances Probably nineteen men out of tweaty, if a rat should invade their pantaloons, would shout murder, clutch at the rodent, seek to treat in, or else dish ranteary into the street and call for aid; or, worse yet, seek to disrobe, and thus certainly provoke the unwelcome visitor to fasten its incisors in the flesh, with nearly all the chances of a dangerous sequel. Not so with a stout typographer who happened in at the Capital Hotel Wednesday night. A rat in a trap was brought into a room to give a dog ap was brought into a room to give a dog a opportunity to kill it. The doors were used. The printer just then happened a and stood one side to see the fun. When at trap was opened the rat med for him, or he was fat and juley appearing and the money required to purchase a site could be presented. the trap was opened the rat med for him, of his pantaloons. Meeting of the State Board of Agriculture with the Board of Trade - Plans and

Methods Discussed. The State Board of Agriculture met last evening at the office of the Secretary. Present, H. M. La Rue, P. esident; W. P. Coleman, C. M. Chase, L. U. Shippee, Chris. Green, G. W. Hancock. The Board of Trade of Sacramento City had been invited to be present, and it was represented by John Mc-Neill, President; George E. Bates, Secre-

tary, and P. E. Platt.

President La Rue called the meeting to order, and stated that the business of the meeting was to take into consideration the erection of a new pavilion. He said several sites had been mentioned to members of the Board, among which, besides the present one, were Capitol Park, Agricultural Park, and the half-block directly east of the present building. He also said that if a new one was to be erected, the Board of Supervisors would dispose of the present one and add the pro-ceeds realized from the sale to the fund for the erection of the new building. He believed the citizens of the city would respond liberally; that the present one had outgrown its usefulness; that people in the State had refused to come to the fair with their goods

for the reason that they could not get suffi-cient space to exhibit them. Mr. La Rue then called upon John McNeill to state his wounds rapidly, that vermin of that order views in regard to the matter.

Mr. McNeill said that the subject had been the Board of Trade, and the discussed by the Board of Trade, and the opinion of the Board was that steps should be taken to erect a new exposition building; are not infrequent of dangerous wounds and | that the growing importance of Sacramen's death resulting from the fastering of a rat required it. He agreed with Mr. La Rue upon a man's flesh. At anyrate, a rat in that the present building was unfit for the one's pantaloon leg is not an agreeable tenant. use to which it was put, and that citizens of the State would contribute funds for a new building. He said he had made inquiry, and learned that the portion of the black east crash it, or else dash frantically into the street and call for aid; or, worse yet, seek ooo. He believed the present site was more convenient for the people than any other that could be secured. He objected to destroying Capitol Park, as it was the only breathing place that Sacramento had, and if one building was erected on it, it would establish a precedent, and the park would soon be filled

for he was fat and juicy appearing, and the animal evidently believed his garments to be the safest hiding-place, as being the most roomy. At any rate it ran in at the bottom

Mr. Chase thought the people of the city of Sacramento should be consulted in regard to where they would prefer the building to be eracted; for if the people of the city were not in harmony with the enterprise it might

the new building in Capitol Park. He did not think that Agricultural Park was suited for the purpose, as it was inconvenient. He he turns downward; here he comes by my knew—there, he's out." And so he was, and in another moment he was on the floor, and a dead rat. Those present declare that it was a first class example of coolness and presence of mind, and are loud in their praise of the nerve" of the typo. But then that is characteristic of the craft.

The believed the money expended on purchasing a size could be used to a much better advantage in the construction of the building. He thought if a proposition was presented to the Legislature to erect a pavilion on Capitol Park grounds a handsome appropriation could be secured.

W. P. Coleman agreed with the pravious speakers that a new building should be erected, and believed a meeting it was continued for argument until 10 o'clock this morning. The case excites considerable speakers that a new building should be erected, and believed a meeting of the citizens of Sacramento should be called to consider the matter. The case of John Inghram, charged with libeling P. McG. Newcastle by causing to be published in the Daily Bee an untrue article, defamatory of his character, came up in the

libelous, and said he had received from Inghram the item on a slip of paper torn from a memorandum book. He glanced at the item, and seeing that it was a local matter, passed it to another desk, and it finally reached the city editor, Mr. Hawkins. He was not aware that Inghram was in the habit of furnishing news to the paper.

Mr. Hawkins testified that the item referred to was handed to him by one of the editors. He prepared the item for publica-tion, making some erasures, but added noth-

ing to what was already written. He supposed the original manuscript had been destroyed. He was not acquainted with Ingaram, and did not know that he had ever furnished a news item to the paper before. P. McG. Newcastle testified that he had read the item, and that it was false. He was in San Francisco when the alleged robbery charged against him by the item occurred. Had known Inchram since last spring. Was never arrested for the offense charged in the paper. Know Mr. Sprague, also charged in the item; he is wharfinger at Isleton dock. Know Mr. Hildebrand, also charged in the item; he is a laborer, and lives at Isleton. There is no other man by the name of P. McG Newcastle in the vicinity of Isleton. Became acquainted with Inghram when he was Deputy County Assessor. The two became some-what familiar, but after awhile he treated witness rather coolly. Knew of no reason for the coldness. The name, as it appears in

the item, was not his.

Moses Sprague sworn: Have known the defendant for about one year; am wharfinger at Isleton; that is my name in the item published; did not see Inghram at Isleton near that time; the article is untrue; never was arrested on the charge as alleged; there was a robbery committed; know of no way in which Inghram could have formed a prejudice against Newcastle; became acquainted with Inghram in this city; our relations were

always friendly. Charles McClatchy sworn: Know Inghram; after Newcastle came into the office in regard to the item I went to see Inghram; he told me his informant was a Mr. Chancey, purser of the steamer Apache.

Mr. Newcastle, recalled: At the time of the last Republican primary Inghram was working for Mr. Houston for Assessor, and I worked against him at the polls. Inghram was not at Isleton at that time. Wells, Fargo & Co.'s box was robbed. The Daily Bee of November 21st was offered in evidence, and was objected to on the ground that Phil. McG. Newcastle was the name published, and there was no war rant to presume that it referred to Mr. New-

S. S. Couture was the first witness called by the defense. Am employed by Mr. Inghram; know a man named Chauncev Livingston; was present on November 21st when Livingston had a conversation with Lordon. Livingston had a conversation with Inghram. The question was asked as to what the conversation was, but was ruled out by the Frank W. Bailey, a partner of Inghram,

The defendant was then sworn: My full name is John Morgan loghram. Have seen the article which purports to be libelous; furnished it for publication. Have known Newcastle since about the middle of March; have no malies against him; caused the publication to be made, from information received only. Told Newcastle since the publication of the item that I wrote it on the ORD-UNION under the name of "Silex."

### MEN OF THE HOUR.

J. H. HAVERLY.

Mr. Haverly has been called the Napoleon of managers. He has daring, energy and success. The parallel isso far good. He is a native of Pennsylvania, and was born in 1838. About 21 years ago he embarked in the theatrical business as manager of a theater in Toledo, O., and in which he had an interest as proprietor or part proprietor. His tersect the Northern Railroad at Williams next engagement was as manager for the or Maxwell have been contributed.

Sands Minstrels. Several years' management for the Cal. Wagner Minstrels preceded his making an experiment with a company of his own, which he accomplished in 1875. This was known as the first Haverly's Minstrels, and included performers of good repute. He next was manager of the Chicago Adelphi Theater for a season. Then he organized four minetrel companies under his own name, who traveled in different directions, and all made money. His great scheme of estab-lishing a chain of theaters from Chicago to San Francisco proved a failure, but the daring manager's success at Hooley's Theater, Chicago, and other places in the connection When a Petaluma woman was shown a prevented lasting injury to his business repu-picture of Lydia Pinkham, and informed tation. At this time Mr. Haverly was interthat it was a portrait of Mrs. Langtry, the ested in thirteen combinations and six theof the Dearborn-Street Theater, Chicago, in 1876, proved preliminary to the repair of his fortunes. He is now manager of a fine new theater in Chicago, and of three in New York City, the Fourteenth Street, Fifth Avenue and Niblo's Garden theaters, and of one in Brooklyn. This brief record justifies Mr Haverly's reputation as the most dashing of our leading theatrical managers.

WHEAT—Never was so much business transacted at any session of the Produce Exchange, since the introduction of the call system, as this morning. The Grain Exchange, so far, has had the bulk of this class of trade, though most of the purchases on shipping account have been made through private sources. One leading operator, however, this morning made no secret of his desire to scenre buyer December contracts of No. 1 White within well-defined limits, the extremes being \$1 73@1 73\perp resulting in sales to the extent of 1,300 tons, embracing 500 tons at \$1 73\perp 500 to

At last, an offer was made to seen 10.1 cons January Feed at \$1.43\frac{1}{2}\$. As this was a full cont below the opening sale yesterday, it was deemed a good buy, but it was soon found no easy task to secure a purchaser for a duplicate parcel. From this figure the market slowly declined, under liberal sales, to \$1.42\frac{1}{2}\$, when heavy holders stood in and stopped further tumbling. Sales include 200 tons No. 1 Feed, languary \$1.43\frac{1}{2}\$, 100 do. \$1.43\frac{1}{2}\$. There were fifty freight teams in Penders 10.45\frac{1}{2}\$.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting ourning sensation, and a weakening of the system in a manner the patient cannot account for. On in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish bue, again changing to a dark and torput appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a heatthy restoration of the genito-urinary organs.
